

# The resources you need. Only one call.

Davey understands that utilities require efficient, effective service during emergency situations. We stand ready to assist at any time and will quickly organize and dispatch professionally trained crews throughout North America. Our nearly 130 years of experience and depth of resources ensure reliable service delivery.

We have the expertise to safely and professionally respond to post-storm needs, including line clearance work, damage assessments and work planning.

**DAVEY**   
*Proven Solutions for a Growing World*

# Proven solutions. Timely response. Superior results.

When called to respond to an emergency, you can be assured Davey crews are qualified with all necessary credentials, including OSHA training and DOT certifications. Additionally seasoned Davey Resource Group personnel can provide field inspections for compliance and safety, damage assessments and notifications, and expert data collection.

Our employee owners are committed to delivering superior results, and we understand what it takes to be a first responder when hurricanes, tornadoes, and other severe weather destroy power systems.
