

TREEKEEPER CANOPY URBAN FORESTRY PLANNING TOOL

TreeKeeper Canopy is a unique and user-friendly tool that allows the user to visualize canopy assessment results. With TreeKeeper Canopy, you can also set measurable canopy goals by applying user-defined variables and scenarios to help guide future community forest management and reforestation efforts. The tool enables you to prioritize new planting locations, project and estimate future tree canopy benefits, and budget for tree planting costs to reach set goals within the community.

TREE CANOPY SOLUTIONS FOR ALL:

- Municipal
- Parks
- Universities
- Non-Profit
- Government
