

4 ESSENTIAL STEPS FOR SUMMER TREE CARE

Summer isn't always so sweet to your trees. Help them from falling victim to summer storms, pests and diseases by following the Davey Summer Checklist.

PRUNE

- Remove critical risk trees
- Prune dead, diseased or unsafe branches
- Prune Spring flowering shrubs

INSPECT

- Inspect trees and shrubs for insects and diseases, and treat appropriately
- Inspect trees and shrubs for drought stress

FERTILIZE

- Fertilize trees and shrubs (as part of your normal annual program)

PREPARE

- Cable or brace weak limbs to prepare for severe weather
